USING DATA TO SUPPORT DECISION MAKING

** Open to all those ONE-MHSIP meeting participants who arrive in town early enough on Wednesday and who have an interest in the identified topic. Come on time or arrive late – just join in! Increasingly, policy makers and advocates alike (including the state Mental Health Planning and Advisory Councils) are recognizing the role of data in shaping an effective mental health delivery system. Let's hear what your state is doing to promote this movement! Bring materials to share, showing examples of how your state is using data to plan for and implement change within the state mental health system. We will discuss results, learn from one another and perhaps find even more common ground than you might have imagined.*

5:30 p.m. – ???? p.m. **Dinner on the town**
